ABSTRACT

The present investigation endeavored

- **to assess the level of emotional intelligence of adolescents, and**
- **to study the influence of home environment, personality and their interaction on emotional intelligence of adolescents.**

A sample of 300 adolescents was randomly selected from various secondary schools of state Haryana. Data analysis revealed

- **level of emotional intelligence of adolescents was moderate;**
- **significant independent effect of home environment and personality on emotional intelligence; and**
- **significant two factor interactive effect of variables on emotional intelligence of adolescents.**

Keywords: Emotional Intelligence, home environment, personality, adolescents.
