### ABSTRACT

The city houses established and have been operating under the coordination of Eskisehir Tepebasi Municipality has adopted the aims of causing child, youth, and adults earn an occupation, of meeting the basic needs, of realizing the support for social, cultural, sport, and educational activities. However, due to the majority benefiting from the city house constituted by women, it has been restricted just with women attending there. Besides the need of acquiring an occupation, the women attending to city house are also in need of being informed about other subjects. Anadolu University The Open Education Faculty The Home Management Program with the associate degree aiming to bring in the information and the skill to be able to use the sources possessed by house, family, and the individual in a most goal directed way is generally a program directed to women education in terms of both its printed material and contents of the televised programs besides being a program on a higher education level.

The aim of this study with women attending to the city houses which are also conveying non-formal education besides their other functions is to determine how to benefit from the Home Management Program which is providing distance education by cooperating with the municipality and the city houses and to contribute to the women education.

In accordance with this target, priorily the conditions to benefit from the city houses and from this program have been determined through the query way carried out with the women attending to city houses, and their expectations from the Home Management Program towards women education and information have been examined.
