Simon Stobart
s.stobart@tees.ac.uk

Dr Simon STOBART is Dean of the School of Computing, one of the six Schools which make up Teesside University. The School provides undergraduate, postgraduate and research programmes in the areas of Computer Science & Networking, Games Concept & Design, Web and Digital Media, Animation & Visual Effects and Games & Graphics programming. His primary role is to provide direction and leadership across all academic activities within the School and to implement the University's corporate strategies, contributing fully as a member of the University's Corporate Executive Team. He has 23+ years' experience of the higher education sector within the UK.
